

Call for Abstracts for Protocol Digitalization Solutions

**DDF in Action Day 2024 and
DDF Vendor Showcase**

June 2024

Abstract Submission

Interested in submitting an abstract? If you have developed a solution that focuses on how the USDM and/or the SDR Reference Implementation have been or can be applied to achieve protocol digitalization, you can submit an abstract for either or both DDF in Action Day (poster session) and DDF Vendor Showcase (presentation) events.

To submit your abstract, complete and return the following information, by July 19, to DDF@transCeleratebiopharma.com.

The subject line of your email submission should read, "Abstract Submission for DDF in Action Day and/or DDF Vendor Showcase".

You are required to submit only one abstract even if you are interested in participating in both.

Provider Name & Contact Information:

Title:

Submission for Event ("DDF in Action Day" and/or "DDF Vendor Showcase"):

What will your poster/presentation show?

3-5 sentences highlighting your solution and how it applies Digital Data Flow (DDF) concept or resources including the CDISC Unified Study Definitions Model (USDM) standard. Please describe the value and clinical stakeholders benefiting from this solution. Include the protocol digitalization use case that your product/solution addresses.

What can the audience take away from this poster/presentation?

➤ No more than 3 bullets

Note:

- **DDF Vendor Showcase: Each installment of the quarterly webinar will showcase 2 vendor presentations (30 -minutes each)**
- **DDF in Action Day 2024: Poster session open to 10 vendor companies**

Abstract Submissions

Criteria Considered for Selection

- TransCelerate does not endorse or promote any vendor or product, including any vendors or products that may be featured at the DDF in Action Day and DDF Vendor Showcase events.
 - Any vendor or technology company that has developed a solution that uses the USDM, SDR, or SDR Reference Implementation, is welcome to submit an abstract.
 - Vendors may jointly submit an abstract that will showcase interconnectivity between their two solutions using USDM.
- Vendors should focus on how the USDM and DDF solutions, such as the SDR or SDR Reference Implementation, have been or can be applied in practice to achieve protocol digitalization.
- Vendor product/solution is related to protocol Digitalization which enable downstream efficiencies
 - Vendor product/solution is available in production environment (not in development/testing phase)
 - Vendor product/solution is posted on the [DDF Solution Directory](#) (clickable link)
- The DDF in Action Day 2024 as well as the DDF Vendor Showcase events are not marketing forums or sales shows. Content that is highly promotional in nature, especially relating to features or functionality with no application of USDM, are not appropriate for these events.
- Space may be limited. Preference will be given to vendors who have not presented (or solutions that have not been featured) previously at any DDF event or webinar.
- Diversity of use cases across all submissions will be a consideration for selection.
